Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. The rejections to claims 1 - 4 and 6 - 8 under 35 U.S.C. 112, first paragraph, are hereby withdrawn in view of the amendments and remarks received 1 April 2009.

Allowable Subject Matter

4. Claims 3 and 8 - 11 (now renumbered 1 - 5) are allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate, nor does it suggest, the combination as now claimed in the claims. Specifically, claims 9 and 11 recite generating caricatured images... determining a caricature level value in dependence on an intended size of the caricatured image to be generated... determining the caricature level value as a generally inverse function of the intended size. These elements in combination with the remaining elements of their respective claims are neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
